

ARC Fertility and Posterity Health Team Up to Empower Male Fertility

Expert Solutions and Personalized Support

Helping You Take Control of Your Reproductive Health

ARC Fertility, in partnership with Posterity Health, provides expert-led, personalized care for men looking to address reproductive health concerns. A digital-first approach and a nationwide network of specialists makes comprehensive male fertility care accessible, affordable and convenient—helping you take proactive steps toward your health goals.

Support for male reproductive health is a crucial component in family-building, yet it is often overlooked. Many men experience fertility challenges due to factors like hormone imbalances, past medical procedures or lifestyle influences. Whether you're looking to optimize your health, explore male birth control options or reverse a previous decision, having the right support and medical expertise is essential.

Male Fertility Evaluation and Treatment

For men seeking to understand and improve their reproductive health, Posterity Health's expert urologists provide:

- **Semen Analysis** – Assess fertility potential through an at-home or lab-based test.
- **Reproductive Health Assessment** – Work with specialists to create a tailored plan to enhance fertility.
- **Personalized Treatment Plans** – Expert guidance on lifestyle, medical interventions, and reproductive options.

Low-T (Testosterone Deficiency)

Low testosterone (Low-T) can impact energy levels, mood and reproductive function. For men who have this problem, our specialists provide:

- **At-Home and Lab Testing** – Flexible screening options to determine hormone levels.
- **Physician-Led Treatment Plans** – Personalized care to safely restore testosterone balance.
- **Ongoing Virtual and In-Person Care** – Ensuring long-term health and performance improvements.

Vasectomies

For those considering permanent birth control, vasectomies offer a reliable and effective solution. ARC Fertility and Posterity Health offer:

- **Experienced Specialists Nationwide** – Expert urologists with extensive vasectomy experience.
- **Comprehensive Consultations** – Male fertility experts that help you make the best decision for your future.
- **Safe and Efficient Procedure** – Performed in a medical office with minimal downtime.

Vasectomy Reversals

Life circumstances change and for those who want to restore fertility after a vasectomy, reversal is often the most cost-effective option. ARC Fertility and Posterity Health provide:

- **Nationwide Network of Skilled Surgeons** – Highly trained microsurgeons that have high success rates with qualified candidates.
- **Comprehensive Evaluation** – Assessing if vasectomy reversal is the best path for you.
- **Personalized Treatment Plans** – Designed to optimize fertility outcomes.

Affordable & Accessible Male Fertility Care

ARC Fertility and Posterity Health make male reproductive care both affordable and accessible by:

- **Insurance and Benefit Plan Integration** – Many services are covered under employer benefits or eligible for HSA/FSA funds.
- **Flexible Care Models** – Choose from virtual consultations, at-home testing, or in-office visits based on your needs.
- **Cost-Effective Solutions** – Transparent pricing and flexible financing options to make care more manageable.

Take the Next Step Toward Better Reproductive Health

Whether you're looking to improve your hormonal health, explore male birth control or restore fertility, ARC Fertility and Posterity Health are here to support you.
